“At Home with Diversity” is an excellent course to learn to provide more homeownership opportunities to people who might otherwise be closed out of the market. To keep our industry and our communities healthy, we must keep looking for ways to help more lower- to middle-income Americans, including “new” Americans, become homeowners. Expanding our multicultural and minority outreach is part of the REALTOR® organization’s overall effort to have our industry be more responsive to the markets we serve.

**Course Credits:**

- This course will give students the At Home with Diversity certification.
- Counts as one elective course to be applied towards the RSPS Certification
- Counts as one REBAC elective course to be applied towards the ABR® designation.
- Credit towards the CIPS Designation.
- Students who have taken At Home with Diversity after 1/1/05 receive Eight Elective credits towards the CRS Designation.
- Credit towards NAR's Performance Management Network Designation through Women's Council of REALTORS®
